

FY 2020 HMIS Data Standards DATA DICTIONARY

December 2019

U.S. Department of Housing and Urban Development

Version 1.6

Contents

SUMMARY OF CHANGES.....	2
ABOUT THIS DICTIONARY.....	4
Data Element Structure	4
PROJECT DESCRIPTOR DATA ELEMENTS.....	6
2.01 Organization Information	6
2.02 Project Information.....	7
2.03 Continuum of Care Information.....	9
2.06 Funding Sources.....	11
2.07 Bed and Unit Inventory Information.....	12
UNIVERSAL DATA ELEMENTS	14
3.01 Name.....	14
3.02 Social Security Number	14
3.03 Date of Birth.....	15
3.04 Race.....	16
3.05 Ethnicity	17
3.06 Gender	17
3.07 Veteran Status.....	18
3.08 Disabling Condition	18
3.10 Project Start Date.....	19
3.11 Project Exit Date.....	20
3.12 Destination.....	20
3.15 Relationship to Head of Household	20
3.16 Client Location	21
3.20 Housing Move-In Date	22
3.917 Prior Living Situation	23
3. 917A Prior Living Situation.....	23
3.917B Prior Living Situation.....	24
PROGRAM SPECIFIC DATA ELEMENTS	26
COMMON DATA ELEMENTS.....	26
4.02 Income and Sources.....	26
4.03 Non-Cash Benefits.....	29
4.04 Health Insurance	31
4.05 Physical Disability	33
4.06 Developmental Disability	34
4.07 Chronic Health Condition.....	35
4.08 HIV/AIDS.....	36
4.09 Mental Health Problem.....	37
4.10 Substance Abuse	38
4.11 Domestic Violence	39
4.12 Current Living Situation	40
4.13 Date of Engagement	42
4.14 Bed-night Date	42
4.19 Coordinated Entry Assessment.....	43
4.20 Coordinated Entry Event.....	44
INDIVIDUAL FEDERAL PARTNER PROGRAM ELEMENTS.....	46
HUD-HOPWA Only Required Elements.....	46
W1 Services Provided – HOPWA.....	46
W2 Financial Assistance– HOPWA	47
W3 Medical Assistance	47
W4 T-cell (CD4) and Viral Load	48
W5 Housing Assessment at Exit.....	50
HHS-PATH Only Required Elements.....	51
P1 Services Provided – PATH Funded	51
P2 Referrals Provided – PATH.....	52
P3 PATH Status.....	53

P4 Connection with SOAR	54
HHS-RHY Only Required Elements	55
R1 Referral Source	55
R2 RHY – BCP Status.....	56
R3 Sexual Orientation	57
R4 Last Grade Completed	58
R5 School Status.....	59
R6 Employment Status.....	59
R7 General Health Status.....	60
R8 Dental Health Status	61
R9 Mental Health Status	61
R10 Pregnancy Status	62
R11 Formerly a Ward of Child Welfare/Foster Care Agency	63
R12 Formerly a Ward of Juvenile Justice System	63
R13 Family Critical Issues.....	64
R14 RHY Service Connections	65
R15 Commercial Sexual Exploitation/Sex Trafficking	65
R16 Labor Exploitation/Trafficking	67
R17 Project Completion Status.....	68
R18 Counseling	68
R19 Safe and Appropriate Exit.....	69
R20 Aftercare Plans.....	70
RHSAP Program Element Visibility – Collection Requirements	71
U1 Worst Housing Situation	71
VA Required Elements	72
V1 Veteran’s Information	72
V2 Services Provided – SSVF	74
V3 Financial Assistance – SSVF.....	75
V4 Percent of AMI (SSVF Eligibility)	76
V5 Last Permanent Address.....	76
V6 VAMC Station Number	77
V7 SSVF HP Targeting Criteria.....	78
V8 HUD-VASH Voucher Tracking.....	80
V9 HUD-VASH Exit Information.....	81
METADATA ELEMENTS.....	82
5.01 Date Created	82
5.02 Date Updated.....	82
5.03 Data Collection Stage.....	83
5.04 Information Date.....	84
5.05 Project Identifier	84
5.06 Enrollment Identifier.....	85
5.07 User Identifier	85
5.08 Personal Identifier.....	86
5.09 Household Identifier	87
REQUIRED COLLECTION POINTS AND METADATA ELEMENTS TABLE SUMMARY	88
Required Collection Points.....	88
Data Elements with Multiple Collection Points	88
Data Elements with a Single Collection Point	88
Base Metadata	88
Project Identifier, Personal ID, and Household ID	88
Appendix A - Living Situation Option List.....	92

SUMMARY OF CHANGES

Revision History

Date	Version	Revision
4/19/2019	1	Release of 2020 Data Standards for Vendors
5/2/2019	1.1	<p>Minor corrections</p> <p>Data Element Structure – minor correction in project type applicability</p> <p>2.02 Project Information – correction to dependent C</p> <p>2.03 Continuum of Care Information – added field 8 response</p> <p>3.12 Destination – added dependency A</p> <p>R6 Employment Status - Added VA: GPD Case Management/Housing Retention and VA: GPD Low Demand as applicable Funder: Program-Components.</p> <p>V6 VAMC Station Number - Added VA: GPD – collection required for all components; VA: CRS Contract Residential Services; and VA: Community Contract Safe Haven Program.</p> <p>V8 HUD-VASH Voucher Tracking - Collection point updated to “Occurrence Point (as provided)”</p> <p>Appendix A - Living Situation Option List – removed Dependent A option</p>
5/21/2019	1.2	<p>4.20 Coordinated Entry Event – corrected dependent reference in system logic section.</p> <p>Correction in table in on pg. 89 Project Identifier, Personal ID, and Household ID that incorrectly labeled 3.12 as Current Living Situation.</p> <p>2.06 Funding Sources - Remove footnote in reference to Community Contract Safe Haven Program.</p> <p>V1 Veteran’s Information – changed VA: HCHV – Collection required for all components to VA: Community Contract Safe Haven and VA: CRS Contract Residential Services to align with funding sources in 2.06.</p> <p>Remove Funder: Program-Component from 4.19 and 4.20.</p> <p>Updates to 4.02-4.11 –Collection required for all components to VA: Community Contract Safe Haven and VA: CRS Contract</p> <p>R6 Employment Status – add GPD All components and project types PH-Housing Only and Safe Haven.</p> <p>R20 Aftercare Plans - changed Dependent A –Dependent to Field 1 to Dependent A – Dependent to Field 2.</p>
6/20/2019	1.3	<p>Fixed incorrect field response # for “Worker unable to determine” in the System Logic & Other System Issues section of 4.12.</p> <p>R3 – added additional project type applicability</p>
8/27/2019	1.4	<p>Moved “Housing Type” and “Target Population” field from 2.07 Bed and Unit Inventory Information to 2.02 Project Information.</p> <p>Added clarifying language to the description of “Relationship of Enrollment ID and Relationship to Personal ID” in the Data Element Structure table.</p> <p>Added clarifying language to System Logic & Other System Issues in 4.12 Current Living Situation for Field 3 list of Continuum Projects.</p> <p>Added clarifying language to System Logic & Other System Issues 4.19 Coordinated Entry Assessment for field uses.</p> <p>V6 Corrected Project Type Applicability</p> <p>Updated SSVF Funder: Program Component for the following data elements: 4.02, 4.03, 4.04, 4.11, 4.19, 4.20, P4, R4, V1-V7.</p> <p>4.12 Current Living Situation – removed Coordinated Entry project type from ESG funding component row.</p> <p>Updated Required Collection Point table to indicate 4.05-4.10 are NOT required to be collected at annual assessment.</p> <p>Add clarification to 2.03 CoC Information that a project operating in only one CoC should have a one-to-one relationship with 2.02 Project Information.</p> <p>2.02 Project Information – changed “housing Type” field to be dependent to residential project types only.</p> <p>Corrected element level change summary for 2.02 and 2.07 to reflect actual FY 2020 changes.</p> <p>V1 add Project type 6: supportive services only to project type applicability</p>

Date	Version	Revision
10/29/2019	1.5	<p>Clarification of dependencies for 3.917B based on “other” living situations. Update 3.917 B header to read “Temporary, Permanent, and Other Housing Situations”.</p> <p>V7 – added element name to data element table.</p> <p>Minor typo correction in R13 (fixed “o” to say “one” in relationship to enrollment ID field).</p> <p>Removed : VA Rapid Resolution Projects from Funder: Program Component cell in 4.19 Coordinated Entry Assessment. This field is optional for the Rapid Resolution projects – not required.</p> <p>Updated XML codes for 4.19 and 4.20.</p>
12/2019	1.6	<p>Remove PSDE collection requirements for HUD-VASH (Except HUD-VASH OTH) [4.02 – 4.20].</p> <p>Remove R4 and V5 data collection requirements for HUD-VASH (Except HUD-VASH OTH).</p> <p>Remove PSDE collection requirements for HUD SSO – Coordinated Entry Projects (4.02 – 4.11).</p> <p>Remove 4.20 data collection requirement for VA: Rapid Resolution.</p>

ABOUT THIS DICTIONARY

Data Element Structure

Every data element required by HUD and the Federal partners to be stored within an HMIS is specified in this document. The following format is used to describe each data element:

Header	Instruction
Element Name	The name of the element.
Field # & Response(s)	<p>The field name and any response options associated with the field.</p> <p>Most elements contain responses of “client doesn’t know” and “client refused”. Data not collected continues to be identified as a response option in this HMIS Data Dictionary. It is not a response option necessary in every system or in every element. The element is required for use by any HMIS system which requires a response to an element before allowing the user to move forward in the system. Adding the response option of “data not collected” enables a user who did not collect or simply does not have the information to enter a response that does not present a false answer. HMIS systems which require entry of any element for the system to progress must implement the “data not collected” response for all elements that require a response. [System Note: data not collected will equate to missing data or null values as appropriate for transfer and reporting purposes.]</p>
Dependent to Field # & Response #	<p>Dependent fields and dependent response options identify the Field and Response option to which they are dependent.</p> <p>The dependencies outlined in the Data Dictionary are expected to be visible to users on-screen. The methods vendors may elect to make dependencies visible/invisible; colored for completion/shaded out; etc. are up to each software developer.</p>
Element Type	<p>The type of data element (project descriptor, universal, program-specific or metadata) which indicates the level at which data are collected, whether they apply to all funding sources, and their relationship to other data.</p> <ol style="list-style-type: none"> Project Descriptor Data Elements (PDDE) are the required elements that define the individual projects within the HMIS system. They are initially entered at the setup of each project within an HMIS. They must be updated by the HMIS Administrator on a regular basis as information within the elements are subject to change and are critical for report generation. Universal Data Elements (UDE) are client level data elements required for collection by all applicable projects participating in HMIS, regardless of funding source. Program-Specific Data Elements are client level elements required by a specific federal program or program component. <ul style="list-style-type: none"> Common Elements (CE) are the first subset of the program-specific data elements that are required for collection by most of the federal partners. When combined with the UDEs, these elements comprise the building blocks for much of the reporting generated by an HMIS. Individual Federal Partner Program Elements are the second subset of the program-specific data elements. These elements are listed under the federal partner program which maintains the element. There are elements maintained by one partner and shared with one other. When combined with UDE’s and Common Elements these elements comprise specific project level reporting generated by an HMIS. Metadata Elements are system generated data about data elements documenting required metadata collection for all of the above element types.
Funder: Program-Component	Identifies the federal department, the program, and the program component which requires the collection of the element.
Project Type Applicability	Project type(s) refers to element 2.02 <i>Project Information</i> and identifies the HMIS project type required to collect and report the data element.

Header	Instruction
Data Collected About	Identifies the universe of client(s) for whom an element response is required (e.g. All Clients, Heads of Household, Adults, etc.). Data may be collected about a wide group (e.g. all household members) but may be further limited in data reporting specifications.
Collection Point	<p>The point(s) at which the data must be able to be collected in an HMIS. For data elements with multiple collection points (e.g. Project Start, Occurrence Point, Project Exit), each record must be stored with the appropriate <i>Data Collection Stage</i> (as listed in metadata element 5.03). Data elements with only a single collection point need not be stored with any particular data collection stage, since their data collection point is inherent in their requirements.</p> <p>Record creation – Indicates the element is required to be collected when the client record is created. Elements collected at record creation should have one and only one value for each client in an HMIS. Data are collected and entered into the HMIS, responses must be reviewed for accuracy at each project start and edited as necessary to make corrections or to improve data quality.</p> <p>Project start (stored with Data Collection Stage of “Project Start” for elements with multiple collection points) – Indicates the element is required to be collected at every project start. Elements collected at project start must have an <i>Information Date</i> that matches the client’s <i>Project Start Date</i>. Information must be accurate as of the <i>Project Start Date</i>. When a data element with multiple collection points is collected at project start, it must be stored with a <i>Data Collection Stage</i> of ‘project start.’ There should be one and only one record with a <i>Data Collection Stage</i> of ‘project start’ for each relevant data element for any given project start. Data may be edited by users associated with the project to correct errors or omissions; such edits will not change the data collection stage associated with the record.</p> <p>Occurrence Point/Update – Indicates the element may be collected and entered at any point during a project stay to track changes over time or document the occurrence of events (e.g. a service is provided). These types of records must be able to be entered at any point during the project stay. Some data elements are collected once per project stay. For others, the system must be able to support a theoretically unlimited number of records per project stay, each with a distinct <i>Information Date</i>. The <i>Information Date</i> should reflect the date on which the information is collected and/or the date for which the information is relevant for reporting purposes. Information must be accurate as of the <i>Information Date</i>, regardless of when it is collected or entered into the HMIS. Data may be edited by users associated with the project to correct errors or omissions; such edits will change neither the data collection stage nor the information date unless it is explicitly altered by the user.</p> <p>Annual assessment (stored with Data Collection Stage of “Annual Assessment”) – Data elements required for collection at annual assessment must be entered with an <i>Information Date</i> of no more than 30 days before or after the anniversary of the head of household’s <i>Project Start Date</i>, regardless of the date of the most recent ‘update’ or any other ‘annual assessment’. Information must be accurate as of the <i>Information Date</i>. The data collection stage may not be inferred from the <i>Information Date</i>, although the field must have an <i>Information Date</i> recorded with it. To be considered reportable to HUD as an annual assessment, data must be stored with a <i>Data Collection Stage</i> of ‘Annual Assessment’. The Annual Assessment must include updating both the head of household’s record and any other family members at the same time.</p> <p>There should be one and only one record for each data element annually with a <i>Data Collection Stage</i> recorded as ‘annual assessment’ associated with any given client and <i>Enrollment ID</i> within the 60-day period surrounding the anniversary of the head of</p>

Header	Instruction
	<p>household's <i>Project Start Date</i>. Regardless of whether the responses have changed since project start or the previous annual assessment, a new record must be created for each subsequent annual assessment such that it is possible to view a history, by date, of the values for each data element. Data may be edited by users associated with the project to correct errors or omissions; such edits will change neither the data collection stage nor the information date unless they are explicitly altered by the user.</p> <p>Project exit (stored with Data Collection Stage of "Project Exit" for elements with multiple collection points) – Indicates the element is required to be collected at every project exit. Elements collected at project exit must have an <i>Information Date</i> that matches the client's <i>Project Exit Date</i>. Information must be accurate as of the <i>Project Exit Date</i>. When a data element with multiple collection points is collected at project exit, it must be stored with a <i>Data Collection Stage</i> of 'project exit.' There should be one and only one record with a <i>Data Collection Stage</i> of 'project exit' for each relevant data element for any given project exit. Data may be edited by users associated with the project to correct errors or omissions; such edits will not change the data collection stage or the information.</p> <p>Post exit (stored with Data Collection Stage of "Post Exit" for elements with multiple collection points) – Indicates the element may be collected after project exit for a period of no longer than six months.</p>
Relationship to Enrollment ID (an enrollment)	Indicates cardinality of the element relative to an enrollment and client. This will often indicate "One or more" even though the element is only applicable to certain project types or funders which require the data element and is further limited to clients described in the "Data Collected About" line in the element. "One or more" does not inherently imply the element should be collected on <i>every</i> client in HMIS. In general, elements recorded at least once per enrollment are required at project start. Elements recorded 0 or more times per enrollment might only be collected as-needed or at exit, e.g. a referral.
Relationship to Personal ID (a client)	
System Logic & Other System Issues	Logically required data collection or system structure information for HMIS software development purposes and information on rationale, conditions, constraints, etc. that may be applicable to a specific element and are important for HMIS software development purposes.
XML	XML element in XML Specifications where the data standard element is located.
CSV	Primary file in CSV Specifications where the data standard element is located.
2020 Revision Summary	Documentation of changes to the element from the 2017 Data Dictionary to the FY 2020 Data Dictionary.

PROJECT DESCRIPTOR DATA ELEMENTS

2.01 Organization Information

Header	Instruction
Element Name	Organization Information
Field 1 & Response	Organization ID – auto generate
Field 2 & Response	Organization Name
Field 3 & Response	Victim Service Provider
	0 No
	1 Yes
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components

Header	Instruction
Project Type Applicability	All HMIS Project Types
Data Collected About	All Organizations
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually
System Logic & Other System Issues	<p>An Organization ID must be assigned to each project via a system generated number or code.</p> <p>Each organization must receive a distinct identifier that is consistently associated with that organization.</p> <p>Each organization must also be able to be associated with one or more projects.</p> <p>The name of the organization must be captured in text within the HMIS.</p> <p>An HMIS must allow the HMIS Lead to activate and deactivate an organization.</p> <p>An HMIS application may permit the creation of a common name field more familiar to users for use within the application while retaining the legal name for use in reporting.</p>
XML	<organization>
CSV	Organization
2020 Revision Summary	Re-number element (from 2.1 to 2.01), rename element from Organization Identifier to Organization Information, add Victim Service Provider field and responses from 2.08 Additional Project Information.

2.02 Project Information

Header	Instruction
Element Name	Project Information
Field 1 & Response	Project ID – auto generate
Field 2 & Response	Project Name
Field 3 & Response	Operating Start Date
Field 4 & Response	Operating End Date
Field 5 & Response	Continuum Project
	0 No
	1 Yes
Field 6 & Responses	Project Type
	1 Emergency Shelter
	2 Transitional Housing
	3 PH - Permanent Supportive Housing (disability required for entry)
	4 Street Outreach
	5 RETIRED
	6 Services Only
	7 Other
	8 Safe Haven
	9 PH – Housing Only
	10 PH – Housing with Services (no disability required for entry)
	11 Day Shelter
	12 Homelessness Prevention
	13 PH - Rapid Re-Housing
	14 Coordinated Entry
Dependent A – Dependent to Field 6 & Response 6	<i>If Services Only for “Project Type”</i> Affiliated with a residential project
	0 No
	1 Yes

Header	Instruction
Dependent B – Dependent to Dependent A & Response 1	<i>If Yes for “Affiliated with a residential project”</i> Project ID(s) of residential project(s) affiliated with SSO
Dependent C – Dependent to Field 6 Response 1	Emergency Shelter Tracking Method
0	Entry/Exit Date (e/e)
3	Night-by-Night (nbn)
Dependent D – Dependent to Field 6 responses 1, 2, 3, 8, 9, 10, 13)	Housing Type
1	Site-based – single site
2	Site-based – clustered / multiple sites
3	Tenant-based - scattered site
Field 7 & Response	HMIS Participating Project
0	No
1	Yes
Field 8 & Responses	Target Population
1	DV: Domestic violence victims
3	HIV: Persons with HIV/AIDS
4	NA: Not applicable
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Projects
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually
System Logic & Other System Issues	<p>A Project ID must be assigned to each project via a system generated number or code. Each project must receive an identifier that is unique within the HMIS and consistently associated with that project.</p> <p>Each project must be associated with an organization (data element 2.01); separate projects operated by the same agency must be associated with the same Organization ID.</p> <p>The name of the project must be captured in text within the HMIS.</p> <p>An HMIS application may permit the creation of a common name element more familiar to users for use within the application while retaining the legal name for use in reporting.</p> <p>System stores collected project type and retains for historical purposes. Allow edits if changes or corrections for data entry error.</p> <p>A project can only have one project type assigned.</p> <p>A project must be able to identify multiple affiliated residential projects if “yes” to Dependent A.</p> <p>One ES Tracking Method must be identified in an HMIS for each Emergency Shelter project. Reporting and outcomes will differ depending on the method utilized by the shelter.</p> <p>Utilization of the night-by-night method does not mean that an HMIS must identify a client in a specific bed. If the HMIS supports a custom module that identifies clients in a bed that module may continue to be used. However, use of that module does not necessarily equate with the night-by-night model.</p>

Header	Instruction
XML	<project>
CSV	Project and Affiliation
2020 Revision Summary	Re-number element (from 2.2 to 2.02), rename element from Project Identifiers to Project Information, add all fields from 2.4 Project Type element (Continuum Project, Project Type, Residential Affiliation), add HMIS Participating Bed from 2.7 Bed Inventory element and rename to HMIS Participating Project, add all fields from 2.5 Method for Tracking Emergency Shelter Utilization (Method), added "Target Population", and "housing type" and renamed Project Type 14 from Coordinated Assessment to Coordinated Entry. Corrected Dependent C field reference

2.03 Continuum of Care Information

Header	Instruction
Element Name	Continuum of Care Information
Field 1 & Response	Continuum Code - HUD-assigned CoC codes for the project location [text – 6 characters]
Field 2 & Response	Geocode (6 digits)
Field 3 & Responses	Project street address 1 (text)
Field 4 & Responses	Project street address 2 (text)
Field 5 & Responses	Project city (text)
Field 6 & Responses	Project state (2 letters)
Field 7 & Responses	Project ZIP code (5 digits)
Field 8 & Response	Geography Type <i>[From look up table provided by HUD – code the following geography types based on ZIP code]</i>
	1Urban
	2Suburban
	3Rural
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Continuum Projects
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually
System Logic & Other System Issues	<p>There is a many-to-one relationship between this data element and 2.02 Project Information; there may be multiple current records of this data element at any given time. Add, edit, or remove associations with CoCs as needed to reflect changes. There must be a one-to-one relationship to Project Information if the project only serves one CoC (most common).</p> <p>Projects may be funded to provide for housing and/or services to clients residing in only one CoC (e.g. CoC: Transitional Housing), or they may be funded for housing and/or services across multiple CoCs (e.g. VA: SSVF). The system must allow for multiple codes selected per project.</p> <p>It must be possible to associate a project with the CoC code for every geographic area in which the project operates and for which it will be entering data into the HMIS.</p> <p>If the system sets a default value for the CoC code, it should be the CoC code for the continuum operating the HMIS.</p>

Header	Instruction
	<p>For data quality purposes, the CoC codes in this data element should be used to populate an option list of CoC codes for data element 3.16 Client Location when one is required.</p> <p>HUD will release an updated crosswalk of ZIP codes with a geography type for each annually. This must be incorporated as a table into HMIS applications and used to auto-populate the geography type field.</p>
XML	<projectCoC>
CSV	ProjectCoC
2020 Revision Summary	<p>Renumber element (from 2.3 to 2.03), rename element from Continuum of Care Code to Continuum of Care Information, add fields from 2.8 Additional Project Information (Geocode, Project Zip Code, Geography Type, Project Street Address, Project City, and Project State).</p> <p>Added “Geography Type” to field response.</p>

2.06 Funding Sources

Header	Instruction
Element Name	Funding Sources
Field 1 & Responses	Federal Partner Program and Components
	1 HUD: CoC – Homelessness Prevention (High Performing Comm. Only)
	2 HUD: CoC – Permanent Supportive Housing
	3 HUD: CoC – Rapid Re-Housing
	4 HUD: CoC – Supportive Services Only
	5 HUD: CoC – Transitional Housing
	6 HUD: CoC – Safe Haven
	7 HUD: CoC – Single Room Occupancy (SRO)
	43 HUD: CoC – Youth Homeless Demonstration Program (YHDP)
	44 HUD: CoC – Joint Component TH/RRH
	8 HUD: ESG – Emergency Shelter (operating and/or essential services)
	9 HUD: ESG – Homelessness Prevention
	10 HUD: ESG – Rapid Rehousing
	11 HUD: ESG – Street Outreach
	35 HUD: Pay for Success
	36 HUD: Public and Indian Housing (PIH) Programs
	12 HUD: Rural Housing Stability Assistance Program
	13 HUD: HOPWA – Hotel/Motel Vouchers
	14 HUD: HOPWA – Housing Information
	15 HUD: HOPWA – Permanent Housing (facility based or TBRA)
	16 HUD: HOPWA – Permanent Housing Placement
	17 HUD: HOPWA – Short-Term Rent, Mortgage, Utility assistance
	18 HUD: HOPWA – Short-Term Supportive Facility
	19 HUD: HOPWA – Transitional Housing (facility based or TBRA)
	20 HUD: HUD/VASH
	21 HHS: PATH – Street Outreach & Supportive Services Only
	22 HHS: RHY – Basic Center Program (prevention and shelter)
	23 HHS: RHY – Maternity Group Home for Pregnant and Parenting Youth
	24 HHS: RHY – Transitional Living Program
	25 HHS: RHY – Street Outreach Project
	26 HHS: RHY – Demonstration Project
	27 VA: CRS Contract Residential Services
	37 VA: Grant Per Diem – Bridge Housing
	38 VA: Grant Per Diem – Low Demand
	39 VA: Grant Per Diem – Hospital to Housing
	40 VA: Grant Per Diem – Clinical Treatment
	41 VA: Grant Per Diem – Service Intensive Transitional Housing
	42 VA: Grant Per Diem – Transition in Place
	45 VA: Grant per Diem – Case Management/Housing Retention
	30 VA: Community Contract Safe Haven Program
	33 VA: Supportive Services for Veteran Families
	34 N/A
	46 Local or Other Funding Source (Please Specify)

Header	Instruction
Dependent A – Dependent to Field 1 Response 46	If other specify [text]
Field 2 & Response	Grant Identifier
Field 3 & Response	Grant Start Date ([date field])
Field 4 & Response	Grant End Date ([date field])
Element Type	Project Descriptor
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Projects
Collection Point	Initial HMIS project setup, reviewed/updated no less than annually
System Logic & Other System Issues	<p>This is a transactional data element; a single project may have multiple current and historical records. Allow corrections for data entry error.</p> <p>An HMIS must allow projects with multiple Funder sources and multiple grants (with potentially different grant terms) from the same funding source to record and store all funding sources for the project.</p>
XML	<Funder>
CSV	Funder
2020 Revision Summary	<p>Renumber element (from 2.6 to 2.06), rename element (from "Federal Partner Funding Sources" to "Funding Sources"), add "VA: Grant Per Diem - Case Management/Housing Retention" and "HUD: CoC - Joint Component TH/RRH" funding sources, remove "VA: Compensated Work Therapy Transitional Residence" and add "Local or other Funding Sources" and a dependent text box to record the name of the local or other funding.</p>

2.07 Bed and Unit Inventory Information

Header	Instruction
Element Name	Bed and Unit Inventory Information
Field 1 & Response	Inventory start date (date)
Field 2 & Response	Inventory end date (date)
Field 3 & Response	CoC Code
Field 4 & Responses	Household type
	1 Households without children
	3 Households with at least one adult and one child
	4 Households with only children
Field 5 & Responses	If 2.02 Project Type = 'Emergency shelter' - Bed Type
	1 Facility-based beds
	2 Voucher beds
	3 Other beds
Field 6 & Responses	If 2.02 Project Type = 'Emergency shelter' – Availability
	1 Year-round
	2 Seasonal
	3 Overflow
Field 7 & Response	Beds dedicated to chronically homeless veterans (integer)
Field 8 & Response	Beds dedicated to youth-veterans (integer)
Field 9 & Response	Beds dedicated to any other veteran (integer)
Field 10 & Response	Beds dedicated to chronically homeless youth (integer)
Field 11 & Response	Beds dedicated to any other youth (integer)
Field 12 & Response	Beds dedicated to any other CH (integer)
Field 13 & Response	Non-dedicated beds (integer)
Field 14 & Response	Total bed inventory (integer)

Header	Instruction
Field 15 & Response	Total unit inventory (integer)
Funder: Program-Component	All Programs – All Components
Project Type Applicability	1: Emergency Shelter
	2: Transitional Housing
	3: PH- Permanent Supportive Housing
	8: Safe Haven
	9: PH- Housing Only
	10: PH- Housing with Services
	13: PH- Rapid Re-Housing
Data Collected About	All Residential Projects
Collection Point	Initial HMIS project setup, reviewed at least annually and updated as needed to reflect changes.
System Logic & Other System Issues	<p>A project may have multiple current and historical records of inventory.</p> <p>For any inventory record, it must be possible to identify the CoC with which the inventory is associated. If the HMIS produces CoC-level reporting on 2.07 Bed and Unit Information (LSA and/or HIC) for more than one continuum, records of inventory must be separate and associated with the CoC where the inventory is located.</p> <p>For projects that operate in a single continuum, there is a many-to-one relationship between this data element and 2.02 Project Information, although at any given time, only one record for this data element will be current. For projects that operate in multiple CoCs, there is a similar many-to-one relationship with 2.03 Continuum of Care Information.</p> <p>Data entry errors should be corrected; a new record should be created to document a change in information. A new record is only required if a change has occurred.</p> <p>Not all fields are required for all projects.</p> <p>These fields must be transactional, meaning they must be able to record multiple values over time.</p> <p>Bed inventory fields are expected to be mutually exclusive categories and must accurately sum to the Total Bed Inventory.</p>
XML	<Inventory>
CSV	Inventory
2020 Revision Summary	Renamed (from Bed and Unit Inventory to Bed and Unit Inventory Information), renumbered from 2.7 to 2.07, removed "Information Date," and revised dedicated bed inventory for special populations.

UNIVERSAL DATA ELEMENTS

3.01 Name

Header	Instruction
Element Name	Name

Collection Point	Record Creation
Relationship to Enrollment ID (an enrollment)	N/A
Relationship to Personal ID (a client)	1 Social Security Number per client

Header	Instruction
System Logic & Other System Issues	<p>System stores collected nine-digit SSN in one field and the appropriate SSN data quality in another.</p> <p>Associated project users must be able to edit data to correct errors or reflect changes in client responses.</p> <p>The HMIS may include hyphens or other punctuation within the SSN to improve readability, but the SSN must be exportable as a single alphanumeric field containing a maximum of nine characters and no punctuation.</p> <p>HMIS solutions and HMIS administrators (if the system permits) may designate special <i>non-numeric</i> characters (e.g., the letter x) to indicate missing digits and otherwise devise methodologies to allow entry and effective matching of partial SSNs. Because missing digits may appear in any one of the nine placeholders, it is critical for the system to have a mechanism to indicate which digits were missing when entering partial SSNs; an alphabetic character must be interpreted as a placeholder.</p> <p>The HMIS may elect to add an additional field, in a manner defined by the system, for clients who do not have an SSN to facilitate merging duplicated records.</p>

0	No
1	Yes
8	Client doesn't know
9	Client refused
99	Data not collected
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Project start (Edit as necessary to reflect new information)
Relationship to Enrollment ID (an enrollment)	No more than one Disabling Condition per Enrollment
Relationship to Personal ID (a client)	One or more Disabling Condition per Client

Header	Instruction
System Logic & Other System Issues	<p>A user must be able to set the value of this data element to ‘Yes’ independent of any other data element.</p> <p>Disabling condition may either be entered by the user independently of any other special need field, or data in this field may be inferred by the responses to “ability to live independently” for 4.05, 4.07, 4.09 or 4.10 or an answer of “Yes” to 4.06 or 4.08.</p> <p>If the system auto-populates Disabling Condition, a user must be able to override a system-generated “no” with “yes”. Further, if Disabling Condition is auto-populated with “yes” based solely on a qualifying record for data elements 4.05-4.10 (i.e., the user-entered response to Disabling Condition was something other than “yes” but was changed to “yes” by the system due to an answer in the special needs fields (4.05-4.10)) and the special needs record is later deleted or edited such that it doesn’t meet the criteria for Disabling Condition, the auto-populated “yes” response must revert to the user’s original response.</p> <p>Regardless of the response to this data element, if a client has a Physical Disability, Chronic Health Condition, Mental Health Problem, and/or Substance Abuse issue (data elements 4.05, 4.07, 4.09, 4.10) that meets the criteria for a disabling condition (Dependent Field A = ‘Yes’), OR 4.06 Developmental Disability or 4.08 HIV/AIDS = “yes” reporting should always count the client as having a Disabling Condition.</p>
XML	<Enrollment><DisablingCondition>
CSV	Enrollment
2020 Revision Summary	Re-numbered from 3.8 to 3.08. Clarification in System Logic for auto calculating Disabling Condition based on 4.08 HIV/AIDS and 4.06 Development Disability.

3.10 Project Start Date

Header	Instruction
Element Name	Project Start Date
Field 1 & Response	Project Start Date ([date field])
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than one Project Start Date per Enrollment
Relationship to Personal ID (a client)	One or more Project Start Date per Client
System Logic & Other System Issues	The project start date must be exportable in the [date field] format.

3.12 Destination

Header	Instruction
Element Name	Destination
Field 1 & Responses	See Appendix A – Living Situation Option List
Dependent A – Dependent to Field 1 & Response 17	If Other for “Type of Residence” – text box for Specify Where
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Project Exit
Relationship to Enrollment ID (an enrollment)	Zero or one Destination per Enrollment
Relationship to Personal ID (a client)	Zero or more Destination per Client
System Logic & Other System Issues	Display exit destinations using the same screen order as indicated in Appendix A . This is optional but suggested for consideration.
XML	<Exit><...>
CSV	Exit
2020 Revision Summary	Revised Destination list to align with Prior Living Situation and Current Living Situation lists. Added dependent A.

3.15 Relationship to Head of Household

Header	Instruction
Element Name	Relationship to Head of Household
Field 1 & Responses	Relationship to Head of Household
	1 Self
	2 Head of household’s child
	3 Head of household’s spouse or partner
	4 Head of household’s other relation member (other relation to head of household)
	5 Other: non-relation member

Header	Instruction
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than One Relationship to Head of Household per Enrollment
Relationship to Personal ID (a client)	One or more Relationship to Head of Household per Client
System Logic & Other System Issues	<p>It is expected that both the Head of Household and the household member(s) are always in the database together in the same household at a project</p> <p>The system must allow for the Head of Household to leave the household and have the household maintain the same Household ID while assigning a new Head of Household.</p> <p>The system must allow for persons to enter or exit the household without having to complete a full program exit and new project start of the entire household.</p>
XML	<Enrollment><RelationshipToHoH>
CSV	Enrollment
2020 Revision Summary	N/A

3.16 Client Location

Header	Instruction
Element Name	Client Location
Field 1 & Response	Information Date (date information was collected) [date field]
Field 2 & Response	HUD assigned CoC code for the client's location
Element Type	Universal
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	Head of Household
Collection Point	Project Start, Update
Relationship to Enrollment ID (an enrollment)	One or more Client Location per Enrollment
Relationship to Personal ID (a client)	One or more Client Location per Client
System Logic & Other System Issues	<p>It must be possible to associate all project stays with one or more (for clients who move while enrolled) Continuum of Care codes.</p> <p>This data element must be user-entered for all projects with more than one Continuum of Care code identified in Project Descriptor Data Element 2.03. It may be auto-populated for projects that operate in a single CoC.</p> <p>System must allow for updated information collection if change occurs because a client has moved and must record the date the information was collected with a data collection stage of "project update," and retains all updates for historical purpose.</p> <p>To allow projects operating in multiple continuums to enter data into a single 'host' HMIS and provide data to each of the continuums in which they are serving clients, a continuum must be identified for each project start. The Continuum of Care code will be used in continuum reporting in the host HMIS to exclude irrelevant data; it will also be used as a parameter for data export to provide relevant data to other continuums.</p>

Header	Instruction
	<p>Household members' location data must change based on the HOH identified location.</p> <p>Systems may set up defaults to the continuum code of the HMIS implementation but must be able to accept any other continuum code identified in data element 2.03 for the project.</p> <p>For data quality purposes, the CoC codes in this data element should be limited to the same CoC codes used for element 2.03 Continuum of Care Information.</p>

2020 Revision Summary	N/A

3.917 Prior Living Situation

The former universal data elements 3.9 *Residence Prior to Project Start* and 3.17 *Length of Time on the Streets, in an Emergency Shelter or in a Safe Haven* were combined into one element 3.917 Living Situation in 2014 v5. The element was split into two sub-elements which use only the fields and responses necessary for the population being asked the question. **3.917A** is to be used for all persons entering a Street Outreach, Emergency Shelter, or Safe Haven project and **3.917B** is to be used for persons entering all other HMIS project types. The internal HMIS field numbers for the fields and dependents of the sub-elements MUST be the same for like responses. With this separation and clarification, the definition of chronic homelessness as identified in the final rule in the [Federal Register](#) published December 5, 2015 is able to be fully reported through an HMIS.

3. 917A Prior Living Situation

For persons entering HMIS Project Type: Street Outreach, Emergency Shelter, & Safe Haven

Header	Instruction
Element Name	Prior Living Situation (A)
Field 1 & Responses	Type of Residence - See Appendix A – Living Situation Option List
Field 2 & Responses	Length of stay in prior living situation
10	One night or less
11	Two to six nights
2	One week or more, but less than one month
3	One month or more, but less than 90 days
4	90 days or more, but less than one year
5	One year or longer
8	Client doesn't know
9	Client refused
99	Data not collected
Field 3 & Responses	Approximate date homelessness started: (date) [date field]
Field 4 & Responses	(Regardless of where they stayed last night) Number of times the client has been on the streets, in ES, or SH in the past three years including today
1	One Time
2	Two times
3	Three times
4	Four or more times
8	Client doesn't know
9	Client refused
99	Data not collected
Field 5 & Responses	Total number of months homeless on the street, in ES, or SH in the past three years
101	One month (this time is the first month)
102-112	(integers 2-12)
113	More than 12 months
8	Client doesn't know
9	Client refused
99	Data not collected
Element Type	Universal
Funder: Program-Component	All Programs – All Components which are typed as Street Outreach, Emergency Shelter, or Safe Haven.
Project Type Applicability	1: Emergency Shelter 4: Street Outreach 8: Safe Haven
Data Collected About	Head of Household and Adults
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than one Living Situation per Enrollment

Header	Instruction
Relationship to Personal ID (a client)	One or more Living Situation per Client
System Logic & Other System Issues	<p>This element, 3.917A is required for all projects which are typed in the HMIS as Emergency Shelter (either night by night or entry/exit method), Street Outreach, and Safe Haven. No substitution in language or form may be made in this element.</p> <p>This element requires no dependencies and all fields are to be visible and entered by the user.</p> <p>Users must be able to edit data to correct errors or to enter a response for a client who has turned 18.</p> <p>Responses to this data element must always reflect living situation and circumstances as of the Project Start Date and not at the time of collection.</p> <p>The internal field numbers for each of the fields and dependents contained within this element MUST be the same as the field numbers used for 3.917B.</p>
XML	<Enrollment><...>

2020 Revision Summary	<p>Changed element name to "Prior Living Situation"</p> <p>Revised Living Situation list to align with Destination and Current Living Situation lists.</p>

3.917B Prior Living Situation

For persons entering: Transitional Housing, any type of Permanent Housing, Services Only, Day Shelter, Homelessness Prevention, or Coordinated Entry Project

Header	Instruction
Element Name	Prior Living Situation (B)
Field 1 & Responses	Type of Residence - See Appendix A – Living Situation Option List
Field 2 & Responses	Length of stay in the prior living situation
10	One night or less
11	Two to six nights
2	One week or more, but less than one month
3	One month or more, but less than 90 days
4	90 days or more, but less than one year
5	One year or longer
8	Client doesn't know
9	Client refused
99	Data not collected
DEPENDENCIES FOR INSTITUTIONAL SITUATIONS	
Field 2A – for Institutional Situations	Did you stay less than 90 days?
0	No
1	Yes
Dependency Logic	<p>If No – no other response options required.</p> <p>If Yes – use Field #2 response options 10, 11, 2, 3 and go to Field 2C</p>
DEPENDENCIES FOR TEMPORARY, PERMANENT, AND OTHER SITUATIONS	
Field 2B – for Housing Situations	Did you stay less than 7 nights?
0	No
1	Yes
Dependency Logic	<p>If No – no other response options required.</p> <p>If Yes – use Field #2 response options 10, 11, and go to Field 2C</p>
DEPENDENCY FOR YES TO 2A OR 2B	
Field 2C – For yes to 2a or 2b	On the night before did you stay on the streets, ES, or SH
0	No
1	Yes
Dependency Logic	If No – no other response options required.

Header	Instruction
	If Yes – go to Field 3, followed by Field 4 and then Field 5
ELEMENTS FOR CHRONIC HOMELESSNESS	
Field 3 & Responses	Approximate date homelessness started: (date) [date field]
Field 4 & Response	(Regardless of where they stayed last night) Number of times the client has been on the streets, in ES, or SH in the past three years including today
	1 One Time
	2 Two times
	3 Three times
	4 Four or more times
	8 Client doesn't know
	9 Client refused
	99 Data not collected
Field 5 & Responses	Total number of months homeless on the street, in ES, or SH in the past three years
	101 One month (this time is the first month)
	102-112 (integers 2-12)
	113 More than 12 months
	8 Client doesn't know
	9 Client refused
	99 Data not collected
Funder: Program-Component	All Programs – All Components
Project Type Applicability	2: Transitional Housing 3: PH – Permanent Supportive Housing (disability required for entry) 6: Services Only 7: Other 9: PH – Housing Only 10: PH – Housing with Services (no disability required for entry) 11: Day Shelter 12: Homelessness Prevention 13: PH: Rapid Re-housing 14: Coordinated Entry
Data Collected About	Head of Household and Adults
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than one Living Situation per Enrollment
Relationship to Personal ID (a client)	One or more Living Situation per Client
System Logic & Other System Issues	<p>This element, 3.917B, is required for all project types in the HMIS other than Emergency Shelter (either night by night or entry/exit method), Street Outreach, and Safe Haven. No substitution in language or form may be made in this element.</p> <p>Users must be able to edit data to correct errors or to enter a response for a client who has turned 18. Responses to this data element must always reflect living situation and circumstances as of the Project Start Date and not at the time of collection.</p> <p>The HMIS must be able to create dependencies for this element. Data for the fields of this data element should be logically consistent. It is strongly recommended that the HMIS is programmed to enforce these rules or to notify users when inconsistent data has been entered.</p> <ul style="list-style-type: none"> • If there is a “yes” response, then the next response elements must be available for data entry. • If there is any other response, then the next response element must either be hidden or darkened or in some other way identified as not to be completed. <p>The internal field numbers for each of the fields and dependents contained within this element MUST be the same as the field numbers used for 3.917A.</p>

4.13 Date of Engagement

Header	Instruction
Element Name	Date of Engagement
Field 1 & Response	Date of Engagement (date) [date field]
Element Type	Program Specific
Funder: Program-Component	HUD: CoC – Collection only required for Street Outreach HUD: ESG – Collection only required for Street Outreach and ES - nbn HHS: PATH – Collection required for all components HHS: RHY – Collection only required for Street Outreach
Project Type Applicability	1: Emergency Shelter – night by night method only 4: Street Outreach 6: Services Only
Data Collected About	Head of Household and Adults
Collection Point	Occurrence Point (At the Point of Engagement)
Relationship to Enrollment ID (an enrollment)	No more than one Date of Engagement per Enrollment
Relationship to Personal ID (a client)	One or more Dates of Engagement per Client
System Logic Other System Issues	Only one date of engagement is allowed between the project start date and project exit date. If a client returns to the project at a later date the previous date of engagement does not apply to the new project stay. The data must be reentered based on the situation during the new project stay. It is possible that a case may be closed without the client becoming engaged and thus date of engagement would be null in that enrollment record.
XML	<Enrollment>
CSV	Enrollment
2020 Revision Summary	N/A

4.14 Bed-night Date

Header	Instruction
Element Name	Bed-night Date
Field 1 & Response	Bed-night Date (date) [date field]
Element Type	Program Specific
Funder: Program-Component	HUD: ESG – Collection required for ES - nbn
Project Type Applicability	1: Emergency Shelter - nbn method (Applicability extends to all nbn method shelters that are not funded through ESG but also participate in HMIS.)
Data Collected About	All Clients
Collection Point	Occurrence Point (As Provided)
Relationship to Enrollment ID (an enrollment)	Zero or more Bed-Night Date per Enrollment
Relationship to Personal ID (a client)	One or more Bed-Night Date per Client
System Logic & Other System Issues	Collect once for each bed night utilized. A bed night date indicates that the client has utilized a bed in a night-by-night shelter on that date. The system must be able to store a theoretically unlimited number of bed night dates for any Enrollment ID associated with a night-by-night shelter. There must be a record of a bed night on the project start date into the shelter; any additional bed night dates must be after the project start date and <i>before</i> the project exit date. The bed-night date must be exportable in the [date field] format.

4.19 Coordinated Entry Assessment

Header	Instruction
Element Name	Coordinated Entry Assessment
Field 1 & Response	Date of assessment [date]
Field 2 & Response	Assessment location [drop down]
Field 3 & Responses	Assessment Type
1	Phone
2	Virtual
3	In person
Field 4 & Responses	Assessment Level
1	Crisis Needs Assessment
2	Housing Needs Assessment
Field 5 & Responses	Assessment questions – Local determination - as defined by the community
1...n	Questions
Dependent A - Dependent to Field 5 responses	Assessment answers - Local determination – responses to questions defined by community
1...n	Answer for each question in Field 5
Field 6 & Responses	Assessment Result Type – Local determination - as defined by the community
1...n	Result Type
Dependent B - Dependent to Field 6	Assessment Result
1...n	Result for each result type in Field 6
Field 7 & Responses	Prioritization Status
1	Placed on prioritization list
2	Not placed on prioritization list
Element Type	Program Specific
Funder: Program-Component	HUD: CoC – Collection required for all components providing Coordinated Entry HUD: ESG – Collection required for all components providing Coordinated Entry
Project Type Applicability	14: Coordinated Entry (or other depending on CoC design of Coordinated Entry system)
Data Collected About	Head of Household
Collection Point	At occurrence
Relationship to Enrollment ID (an enrollment)	One or more Coordinated Entry Assessment per enrollment
Relationship to Personal ID (a client)	One or more Coordinated Entry Assessment per client
System Logic & Other System Issues	<p>Field 2 – It is recommended that a system administrator managed list is used for this field. If such functionality doesn't exist in the HMIS, a text box must be provided.</p> <p>Fields 5 & 6 and Dependents A and B are representative of whatever assessment a community uses. There is no specified structure or format for an assessment, and an HMIS might have more than one type of assessment (crisis needs or housing needs or multiples of each). The system must be able to treat a single assessment recorded for a client as one unit of data including the fields listed here as well as the community-defined fields.</p> <p>Field 5 and Dependent A are a list of key-value (question and response) pairs for every question in the assessment, e.g. "Where did you sleep last night" / "On the streets".</p>

	<p>Similarly, Field 6 and Dependent B are a list of key-value (result type and result) pairs used to contain any number of possible results, scores, or calculations on the assessment. For example, one assessment might have three results: “Housing stability score” / “10”; “Total score” / “81”; “Recommended placement” / “RRH”.</p> <p>Fields 1-4 and field 7 will be required for reporting purposes. Fields 5 & 6 are included as placeholders for communities who currently do, or want to in the future, collect CE Assessment questions, answers, and results in HMIS. These fields also serve as a common frame of reference when transferring data via HMIS CSV or XML.</p> <p>Data must be able to be added in multiple stages to complete a client record for a single assessment.</p>

1	Yes
Dependent B - Dependent to Field 2 & Response 5	Referral to post-placement/follow-up case management result - Enrolled in Aftercare project
0	No
1	Yes

Dependent C- Dependent to Field 2 & Responses 10-15	Location of Crisis Housing or Permanent Housing Referral [Project name/HMIS ID]
Dependent D– dependent to Field 2 & responses 10-15	Referral Result
1	Successful referral: client accepted
2	Unsuccessful referral: client rejected
3	Unsuccessful referral: provider rejected
Dependent E – Dependent to Dependent D	Date of result [date]
Element Type	Program Specific
Funder: Program-Component	HUD: CoC – Collection required for all components providing Coordinated Entry HUD: ESG – Collection required for all components providing Coordinated Entry
Project Type Applicability	14: Coordinated Entry (or other depending on CoC design of Coordinated Entry system)
Data Collected About	Head of Household
Collection Point	At occurrence
Relationship to Enrollment ID (an enrollment)	One or more Coordinated Entry Event per Enrollment
Relationship to Personal ID (a client)	One or more Coordinated Entry Event per Client
System Logic Other System Issues	Dependent C – It is recommended that a system administrator managed list is used for this field. If such functionality doesn't exist in the HMIS, a text box must be provided. Fields must be updateable over time as an event is resolved and information becomes available (e.g. Dependent A). System must allow for multiple records per project stay to record each instance and must record the date the event occurred (may be more than 1 event per date).
XML	<event>
CSV	Event
2020 Revision Summary	NEW Data Element

INDIVIDUAL FEDERAL PARTNER PROGRAM ELEMENTS

These elements are listed under the federal partner program which maintains the element. There are elements maintained by one partner and shared with one other. When combined with UDE's and Common Elements these elements form the basis of data collection requirements for specific project level reporting generated by an HMIS.

HUD-HOPWA Only Required Elements

W1 Services Provided – HOPWA

Header	Instruction
Element Name	Services Provided - HOPWA
Field 1 & Response	Date of Service (date) [date field]
Field 2 & Responses	Type of Service
	1 Adult day care and personal assistance
	2 Case management
	3 Child care
	4 Criminal justice/legal services
	5 Education
	6 Employment and training services
	7 Food/meals/nutritional services
	8 Health/medical care
	9 Life skills training
	10 Mental health care/counseling
	11 Outreach and/or engagement
	12 Substance abuse services/treatment
	13 Transportation
	14 Other HOPWA funded service
Element Type	Program Specific
Funder: Program-Component	HUD: HOPWA – Collection required for all components
Project Type Applicability	1: Emergency Shelter – e/e method 2: Transitional Housing 3: PH-Permanent Supportive Housing 6: Services Only 12: Homelessness Prevention
Data Collected About	All Clients receiving services
Collection Point	Occurrence Point (As Provided)
Relationship to Enrollment ID (an enrollment)	Zero or more Services Provided - HOPWA per Enrollment
Relationship to Personal ID (a client)	One or more Services Provided - HOPWA per Client
System Logic Other System Issues	Data are time sensitive and may change over the project stay. System must allow for multiple records per project stay to record each instance and must record the date the service was provided. The data in this element are transactional data; each time the service is delivered a record of the date of service and the service element must be maintained. If service benefits entire household, it may be recorded solely for the Head of Household.

2020 Revision Summary	N/A

P3 PATH Status

Header	Instruction
Element Name	PATH Status
Field 1 & Response	Date of Status Determination (date) [date field]
Field 2 & Responses	Client Became Enrolled in PATH
0	No
1	Yes
Dependent A – Dependent to Field 2 & Response 0	<i>If No for “Client Became Enrolled in PATH”</i> Reason not enrolled
1	Client was found ineligible for PATH
2	Client was not enrolled for other reason(s)
3	Unable to locate client
Element Type	Program Specific
Funder: Program-Component	HHS: PATH – Collection required for all components
Project Type Applicability	4: Street Outreach 6: Services Only
Data Collected About	Head of Household and Adults
Collection Point	Occurrence Point (At Determination; collect once, at or before exit, when the status is determined)
Relationship to Enrollment ID (an enrollment)	No more than one PATH Status per Enrollment
Relationship to Personal ID (a client)	One or more PATH Status per Client
System Logic Other System Issues	Only one PATH status date and response is allowed for each project stay. If a client exits and returns to the project later, the previously entered enrollment data does not apply and a new response must be entered based on this new project start and project exit service period. If the HMIS supports requiring elements, then this element and its dependent response should be required for PATH at project exit and the client should not be able to be exited without a response to this element. This element is critical to PATH reporting.
XML	<PATHStatus>
CSV	Enrollment
2020 Revision Summary	Add response to Dependent A; “Unable to locate client”

2020 Update	Add Rapid Resolution, Extended Shallow Subsidy, and Returning Home as services provided

V3 Financial Assistance – SSVF

Header	Instruction
Element Name	Financial Assistance - SSVF
Field 1 & Response	Date of Financial Assistance (date) [date field]
Field 2 & Response	Financial Assistance Amount (amount)
Field 3 & Responses	Financial Assistance Type
	1 Rental assistance
	4 Utility fee payment assistance
	2 Security deposit
	3 Utility deposit
	5 Moving costs
	8 Transportation services: tokens/vouchers
	9 Transportation services: vehicle repair/maintenance
	10 Child Care
	11 General housing stability assistance - emergency supplies
	12 General housing stability assistance - other
	14 Emergency housing assistance
	15 Extended Shallow Subsidy – Rental Assistance
Element Type	Program Specific
Funder: Program Component	VA: SSVF – Collection required for RRH & Homelessness Prevention
Project Type Applicability	12: Homelessness Prevention 13: PH-Rapid Re-Housing
Data Collected About	All Clients receiving financial assistance
Collection Point	Occurrence Point (As Provided)
Relationship to Enrollment ID (an enrollment)	0 or more Financial Assistance - SSVF per Enrollment
Relationship to Personal ID (a client)	1 or more Financial Assistance - SSVF per Client
System Logic Other System Issues	Financial assistance will be recorded as it is provided. The system must allow for a theoretically unlimited number of records per project stay. Users must be able to edit existing records and delete records entered in error. Financial assistance will be recorded for the head of household (only) unless a specific service is of distinct benefit only to a particular household member.

2020 Updates	Added Extended Shallow Subsidy – rental assistance

V4 Percent of AMI (SSVF Eligibility)

Header	Instruction
Element Name	Percent of AMI (SSVF Eligibility)
Field 1 & Responses	Household Income as a Percentage of AMI
	1 Less than 30%
	2 30% to 50%
	3 Greater than 50%
Element Type	Program Specific
Funder: Program-Component	VA: SSVF – Collection required for RRH & Homelessness Prevention
Project Type Applicability	12: Homelessness Prevention 13: PH-Rapid Re-Housing
Data Collected About	Head of Household
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than one Percent of AMI (SSVF Eligibility) per Enrollment
Relationship to Personal ID (a client)	One or more Percent of AMI (SSVF Eligibility) per Client
System Logic & Other System Issues	System stores collected information as “project start” information and retains for historical purpose. The system may not automatically calculate this field unless the VA Annual Income worksheet is part of the HMIS and the field is calculated from that worksheet. Calculation from Income and Sources is prohibited.

V7 SSVF HP Targeting Criteria

Header	Instruction
Element Name	SSVF HP Targeting Criteria
Field 1 & Responses	Referred by Coordinated Entry or a homeless assistance provider to prevent the household from entering an emergency shelter or transitional housing or from staying in a place not meant for human habitation.
	0 No (0 points)
	1 Yes
Field 2 & Responses	Current housing loss expected within...
	0 0-6 days
	1 7-13 days
	2 14-21 days
	3 More than 21 days (0 points)
Field 3 & Responses	Current household income is \$0
	0 No (0 points)
	1 Yes
Field 4 & Responses	Annual household gross income amount
	0 0-14% of Area Median Income (AMI) for household size
	1 15-30% of AMI for household size
	2 More than 30% of AMI for household size (0 points)
Field 5 & Responses	Sudden and significant decrease in cash income (employment and/or cash benefits) AND/OR unavoidable increase in non-discretionary expenses (e.g., rent or medical expenses) in the past 6 months.
	0 No (0 points)
	1 Yes
Field 6 & Responses	Major change in household composition (e.g., death of family member, separation/divorce from adult partner, birth of new child) in the past 12 months.
	0 No (0 points)
	1 Yes
Field 7 & Responses	Rental Evictions within the Past 7 Years
	0 4 or more prior rental evictions
	1 2-3 prior rental evictions
	2 1 prior rental eviction
	3 No prior rental evictions (0 points)
Field 8 & Responses	Currently at risk of losing a tenant-based housing subsidy or housing in a subsidized building or unit.
	0 No (0 points)
	1 Yes
Field 9 & Responses	History of Literal Homelessness (street/shelter/transitional housing).
	0 4 or more times or total of at least 12 months in past three years
	1 2-3 times in past three years
	2 1 time in past three years
	3 None (0 points)
Field 10 & Responses	Head of household with disabling condition (physical health, mental health, substance use) that directly affects ability to secure/maintain housing.
	0 No (0 points)
	1 Yes
Field 11 & Responses	Criminal record for arson, drug dealing or manufacture, or felony offense against persons or property.

Header	Instruction
	0 No (0 points)
	1 Yes
Field 12 & Responses	Registered sex offender
	0 No (0 points)
	1 Yes
Field 13 & Responses	At least one dependent child under age 6
	0 No (0 points)
	1 Yes
Field 14 & Responses	Single parent with minor child(ren)
	0 No (0 points)
	1 Yes
Field 15 & Responses	Household size of 5 or more requiring at least 3 bedrooms (due to age/gender mix)
	0 No (0 points)
	1 Yes
Field 16 & Responses	Any Veteran in household served in Iraq or Afghanistan
	0 No (0 points)
	1 Yes
Field 17 & Responses	Female Veteran
	0 No (0 points)
	1 Yes
Field 20 & Response	HP applicant total points (integer)
Field 21 & Response	Grantee targeting threshold score (integer)
Element Type	Program-Specific
Project Type Applicability	12: Homelessness Prevention
Funder: Program-Component	VA: SSVF – Collection required for Homelessness Prevention
Data Collected About	Head of Household
Collection Point	Project Start
Relationship to Enrollment ID (an enrollment)	No more than one SSVF HP Targeting Criteria per Enrollment
Relationship to Personal ID (a client)	One or more SSVF HP Targeting Criteria per Client
System Logic & Other System Issues	Records must be editable for users to correct data entry errors. There are redundancies between this data element and other data collection, including 3.8 Disabling Condition, 4.2 Income and Sources, V1 Veteran's Information, V4 Percent of AMI (SSVF Eligibility), and data related to household composition. Consistency in responses for this data element and others will be used in evaluation of SSVF data quality.

METADATA ELEMENTS

The term *metadata* is often defined as ‘data about data.’ Instead of capturing information about a project or a client, Metadata Elements capture information about the data itself: when it was collected, when it was entered into HMIS, who entered it, and which project is responsible for it.

The Metadata Elements are intended to facilitate reporting from HMIS, to simplify the writing of programming specifications, and to provide an audit trail. These elements do not represent an attempt to standardize the way that an HMIS stores data. As long as the HMIS is able to accomplish the purposes identified for the Metadata Elements, the software is not required to use the exact metadata elements listed here. Future programming specifications for reports will reference these Metadata Elements. The Metadata Elements are:

5.01 Date Created

Header	Instruction
Element Name	Date Created
Field 1 & Response	[date field]
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Records
Collection Point	Record Creation
System Logic & Other System Issues	<p>HMIS auto-generated. HMIS must have the ability to identify the date on which a record was first created in HMIS for any data element. Data elements that are collected together on a single form may share a single Date Created. HMIS users and system administrators must not have the ability to enter or to modify the information in this Metadata Element.</p> <p>The HMIS must store this metadata for all client-level data elements. It is not necessary that this information be displayed in the user interface of the HMIS, but it must be accessible in the programming of reports. Date Created must not change when a data element is edited. If two client records representing the same person are merged, the earliest Date Created must be retained for data elements for which the HMIS stores only one value per client (e.g., name, SSN, date of birth).</p>
XML	XML attribute: DateCreated
CSV	<*><DateCreated> (Field collected across multiple files)
2020 Revision Summary	Renumbered from 5.1 to 5.01

5.02 Date Updated

Header	Instruction
Element Name	Date Updated
Field 1 & Response	[date field]
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Data Elements
Collection Point	Record Add / Edit
System Logic & Other System Issues	<p>HMIS auto-generated. Created by the HMIS when a record for any data element is first created and updated by the HMIS every time the record is saved by an HMIS user.</p> <p>The HMIS must be able to determine, for all data elements, the date on which it was last edited by a user. Each time a user saves data, the HMIS must store the current date as the Date Updated with the data being saved. Data elements that are collected together on a single form may share a single Date Updated. HMIS users or system administrators must not have the ability to enter or to modify the information in this metadata element.</p>
XML	XML attribute: DateUpdated
CSV	<*><DateUpdated> (Field collected across multiple files)
2020 Revision Summary	Re-numbered from 5.2 to 5.02

5.03 Data Collection Stage

Header	Instruction
Element Name	Data Collection Stage
Field 1 & Response	Data Collection Stage
	1 Project start
	2 Project update
	5 Project annual assessment
	3 Project exit
	6 Post exit
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Data Elements with multiple data collection stages
Collection Point	Client Data Entry of Specified Elements
System Logic & Other System Issues	<p>HMIS auto-generated or HMIS user selected.</p> <p>An HMIS must be able to distinguish between data collected at project start, project update (during a project stay), and at project exit.</p> <p>Data elements that are collected together on a single form may share a single Data Collection Stage.</p> <p>HMIS users should not have the ability to create more than one record per data element at either project start or project exit (e.g., for a single project stay, a client should have one and only one record of Income and Sources identified as project start).</p> <p>The system must allow a user to save a dated record for a client's annual assessment as an "annual assessment".</p> <p>The response categories correlate to response categories defined in the XML and CSV specifications.</p> <p>An "annual assessment" is required as noted in the collection stage for some Program Specific Elements. The Annual Assessment must include updating both the head of household's record and any other family members at the same time.</p> <p>Elements for which a collection point of 'annual assessment' is required must be collected at least once annually for each client. An Annual Assessment must occur between months 11 and 13 annually for all HUD funded projects. The <i>Information Date</i> must be no more than 30 days before or after the anniversary of the head of household's <i>Project Start Date</i>; information must be accurate as of the <i>Information Date</i>. The date range of the Annual Assessment is based entirely around the head of household's <i>Project Start Date</i>, not on the date of the client's or head of household's previous assessment. For all projects which require an annual assessment, data collected as part of an annual assessment must have a <i>Data Collection Stage</i> of 'annual assessment.' There should be one and only one record for each data element with a <i>Data Collection Stage</i> of 'annual assessment' within the 60-day period surrounding the anniversary of the head of household's <i>Project Start Date</i>. Regardless of whether the responses have changed since project start or the previous annual assessment, a new record must be created for each annual assessment such that it is possible to view a history, by date, of the values for each data element.</p>
XML	XML attribute: DataCollectionStage
CSV	<*><DataCollectionStage> (Field collected across multiple files)
2020 Revision Summary	Re-numbered from 5.3 to 5.03

5.04 Information Date

Header	Instruction
Element Name	Information Date
Field 1 & Response	[date field]
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	As Specified in Data Element Definitions
Collection Point	Client Program-Specific Data Entry
System Logic & Other System Issues	<p>This Metadata Element is a hybrid in that it pertains to the client data and not directly to the client, but it will be entered in HMIS by users.</p> <p>Throughout the Data Dictionary this Metadata Element has been added to the data elements where it applies (e.g. Income and Sources, with Response 1 Information Date). The metadata element is included here to provide further information for HMIS vendors and system administrators.</p> <p>Data that is collected only at initial HMIS project start (e.g., Name, Social Security Number) does not require an Information Date.</p> <p>Data that is collected only at project start or only at project exit, may be assumed to have an Information Date that matches the Project Start Date or Project Exit Date, respectively or an HMIS may require that a user specify the date.</p> <p>Data elements that are collected together on a single form may share a single Information Date.</p> <p>This Metadata Element is applicable to all elements which can change over time.</p>
XML	XML attribute: InformationDate
CSV	<*><InformationDate> (Field collected across multiple files)
2020 Revision Summary	Re-numbered from 5.4 to 5.04

5.05 Project Identifier

Header	Instruction
Element Name	Project Identifier
Field 1 & Response	Project Identifier (2.02) of the project that entered or edited the data
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	Specified Data Elements
Collection Point	Record Add / Edit
System Logic & Other System Issues	<p>HMIS auto-generated or HMIS user selected.</p> <p>Data elements that are collected together on a single form may share a single Project Identifier. In order to report on data quality on a project's report, it is first necessary to establish that the project in question was responsible for the data.</p> <p>This is a basic requirement that assumes a simple relationship between clients and projects. In circumstances where one project may be responsible for entering data that would appropriately appear on another project's required report (e.g., a central intake point), it may be necessary to create a more sophisticated method to establish responsibility for the data entered.</p>
XML	Unique Identifier: ProjectID

2020 Revision Summary	Re-numbered from 5.7 to 5.07 New file User.csv.

5.08 Personal Identifier

Header	Instruction
Element Name	Personal Identifier
Field 1 & Response	Personal ID (HMIS Generated)
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Record Creation
System Logic & Other System Issues	<p>Generate one. A Personal ID is an automatically generated identifier created by the HMIS application. A Personal ID must be permanent and unique to a single individual within an HMIS implementation.</p> <p>A Personal ID must be created, but there is no required format if there is a single unique Personal ID for every client and it contains no personally identifying information.</p> <p>The Personal ID must be able to be attached to the same individual when served by multiple projects.</p> <p>There is a one-to-one relationship between Personal ID and 3.01 Name, 3.02 Social Security Number, 3.03 Date of Birth, 3.04 Race, 3.05 Ethnicity, 3.06 Gender, and 3.07 Veteran Status.</p> <p>Search functionality must exist to facilitate linkage of the same person with their Personal ID as they are served by different projects within the continuum. There are multiple ways to accomplish this. The recommended method of search by users for clients in open record systems is for users to enter a combination of personal identifying information (Name, SSN, Date of Birth, and/or Gender) into the HMIS application and have the application search for matching records. If a match is found and a Personal ID is retrieved, the same Personal ID will be assigned to the client, i.e. the same record is used. If no matches are found, a new automatically generated Personal ID is assigned to the client. Variations or other methods may also be utilized by vendors if the system is designed to mitigate duplicate record entry.</p> <p>HMIS must have functionality to allow the HMIS Lead to de-duplicate multiple records with distinct Personal ID's that are identified as representing the same individual based on identifying information.</p>
XML	<Client><PersonalID>
CSV	Client
2020 Revision Summary	Re-numbered from 5.8 to 5.08. Change in name: ID to Identifier for consistency. May be shortened to ID locally and for other purposes.

5.09 Household Identifier

Header	Instruction
Element Name	Household Identifier
Field 1 & Response	Household ID (HMIS Generated)
Element Type	Metadata
Funder: Program-Component	All Programs – All Components
Project Type Applicability	All HMIS Project Types
Data Collected About	All Clients
Collection Point	Project Start
System Logic & Other System Issues	<p>A Household ID will be assigned to each household at each project start and applies for the duration of that project stay to all members of the household served.</p> <p>The Household ID must be automatically generated by the HMIS application to ensure that it is unique. The Household ID has no meaning beyond a single “household enrollment”; it is used in conjunction with the Project ID, Project Start Date, and Project Exit Date to link records for household members together and indicate that they were served together.</p> <p>The Household ID is to be unique to the household stay in a project; reuse of the identification for the same or similar household upon readmission into the project is unacceptable.</p> <p>Persons may join a household with members who have already begun a project start or may leave a project although other members of the household remain in the project. A common Household ID must be assigned to each member of the same household. Persons in a household (either adults or children) who are not present when the household initially applies for assistance and later join the household should be assigned the same Household ID that links them to the rest of the persons in the household. The early departure of a household member would have no impact on the Household ID. A household member who leaves and returns to the same household while others in the household remain enrolled should be reassigned the same HouseholdID as that member’s earlier enrollment.</p> <p>An HMIS may, but is not required to, utilize a Global Household ID at record creation upon initial entry into an HMIS based on the person(s) presenting together as a household at the time of initial entry. A Global Household ID is a value which spans an entire HMIS implementation representing a collection of persons who have been in a household together. Assignment of a client in or out of a global household at a specific project need not immediately affect the client’s data at other projects. If, for example, one household member exits from a household in project A and that household is also being served in project B, there is no requirement to alter the household configuration at project B.</p>
XML	<Enrollment><HouseholdID>
CSV	Enrollment
2020 Revision Summary	Renumber from 5.9 to 5.09. Change in name: ID to Identifier for consistency. May be shortened to ID locally and for other purposes.

REQUIRED COLLECTION POINTS AND METADATA ELEMENTS TABLE SUMMARY

Required Collection Points

Users must be able to enter each data element at the appropriate point in time, as identified in each individual data element definition and summarized in the table below.

Data Elements with Multiple Collection Points

- Data elements with multiple collection points must be recorded with *5.03 Data Collection Stage*.
- There may be no more than one record per *Enrollment ID* of any multiple-point data element with a *Data Collection Stage* of 'project start' or 'project exit.'
- Users must be able to create a theoretically infinite number of records per *Enrollment ID* with a data collection stage of 'update' or 'annual assessment' for multiple-point data elements.

Data Elements with a Single Collection Point

- Data elements with a single collection point may be recorded with *5.03 Data Collection Stage*, but it is not required.
- There may be no more than one record per *Enrollment ID* of any data element collected only at project start, only at project exit, or only post-exit.
- Users must be able to create a theoretically infinite number of records per *Enrollment ID* for single-point data elements with a plain 'X' in the 'Update / Occurrence Point' column in the table below.
- There may be no more than one record per *Enrollment ID* for single-point data elements with 'X (0...1)' in the 'Update / Occurrence Point' column in the table below.

Base Metadata

5.01 Date Created, *5.02 Date Updated*, and *5.07 User Identifier* are not shown in the table below; these base metadata elements are required for every data element. Data elements collected on a single form / stored as fields in one record of a table may share a single set of this base metadata as long as the data elements, as they are defined by this Dictionary, are collected at the same point.

Example 1: Personal ID, SSN, Date of Birth, Race, Ethnicity, Gender, Veteran Status, and Veteran Information all exist at the same level / have a one-to-one relationship with one another. They may share a Date Created, Date Updated, and User ID.

Example 2: Project Start Date and Project Exit Date both have a one-to-one relationship with Enrollment ID but have different collection points. To evaluate timeliness of data entry, Project Start Date and Project Exit Date must have separate base metadata elements.

Project Identifier, Personal ID, and Household ID

Because *3.10 Project Start Date* initiates an enrollment, the creation of this data element is assumed to also create *5.06 Enrollment ID*. Along with the *Enrollment ID*, *Project Start Date* must also be associated with *5.05 Project Identifier*, *5.08 Personal ID*, and *5.09 Household ID*. The relationship of each of these metadata elements to *Enrollment ID* is one-to-one. Every record for any enrollment-related data element (e.g., every data element requiring *Enrollment ID*) is associated with a single project, client, and household through the *Enrollment ID*.

DE	Element	Collection Points						Required Metadata Elements	
		Record Creation	Project Start	Update/ Occurrence Point	Annual Assessment	Project Exit	Post-Exit	Enrollment ID	Data Collection Stage
3.01	Name	X
